

M109A6 155mm Self Propelled Howitzer Digitization Initiative

**Presented to:
National Defense Industrial Association
23 June 1998**

**Presented by:
Mr. Chuck Jacob
OPM Paladin/FAASV**

As of: 6/23/98

Tank-automotive & Armaments COMmand

Paladin Digitization Initiative

Where Am I?

Where Is the Enemy?

**Provide
Situational Awareness**

Where Are My Buddies?

Increase Survivability

Increase OPTEMPO

Increase Lethality

Paladin Team

- ★ DCSOPS
- ★ DCD at Ft Sill
- ★ PM Paladin/FAASV
- ★ ARDEC
- ★ United Defense
- ★ MEI
- ★ Mitre (FFRDC)

Alternative Paths To Situational Awareness

Paladin Howitzer
Wolverine
Mortar Fire Control
Abrams
Bradley
Crusader
MLRS

EBC

- ★ Choice For 'Heavy Hitters'
- ★ Avoids 'Swivel Chair' Operation
- ★ Minimizes 'Boxes'

Integrate
Embedded Battle Command (EBC)
Software On Host Platform

OR

Add
Force Battle Command Brigade & Below
(FBCB2) Applique Computer

FAASV
Grizzly
Other Vehicles Without a Host Computer
Interim Solution For Some Weapon Systems

Situational Awareness

Committed to Excellence

Paladin Digitization Strategy

1993

- Field Original Automatic Fire Control System (AFCS)

1997

- AFCS XXI
- Pentium Upgrade
- Windows NT OS
- GPS Integration

Current Focus

2000

- Integrate EBC
- Replace Monochrome Display with Graphical Display
- Tactical Internet
- BCIS

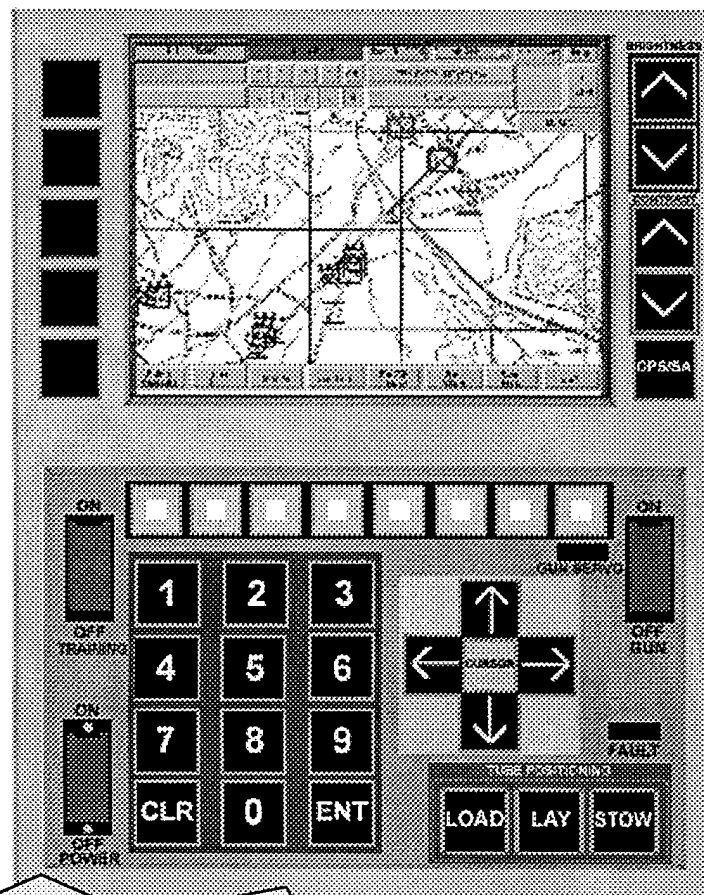

**ADO-Approved
Migration Plan**

**To Follow
Improved Embedded
Training & Diagnostics**

Graphical Display Characteristics

Display Situational Awareness Maps Plus Battlespace Overlays

COTS Components

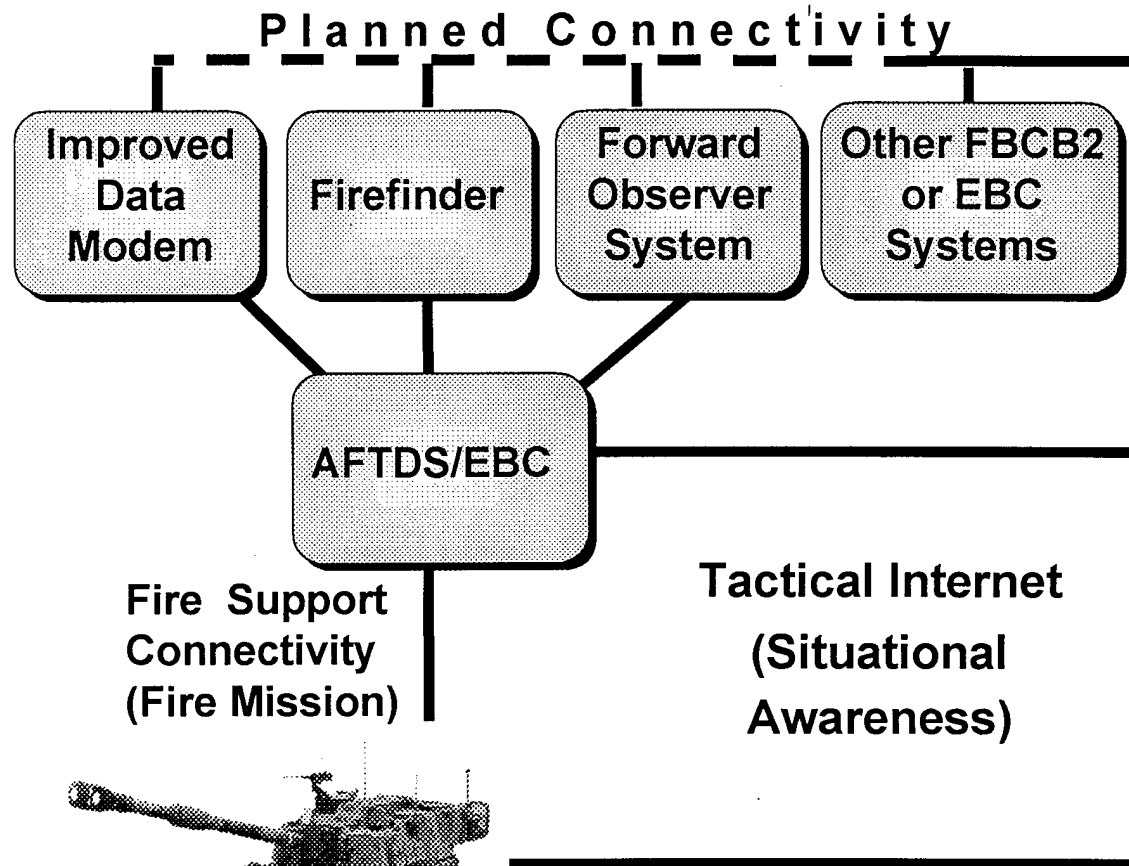

Retain Familiar Fire Mission Interface

Enable Future Upgrades

Toggles Readily Between Fire Mission and Situational Awareness 'Windows'

Committed to Excellence

Digital Interoperability

Paladin/EBC

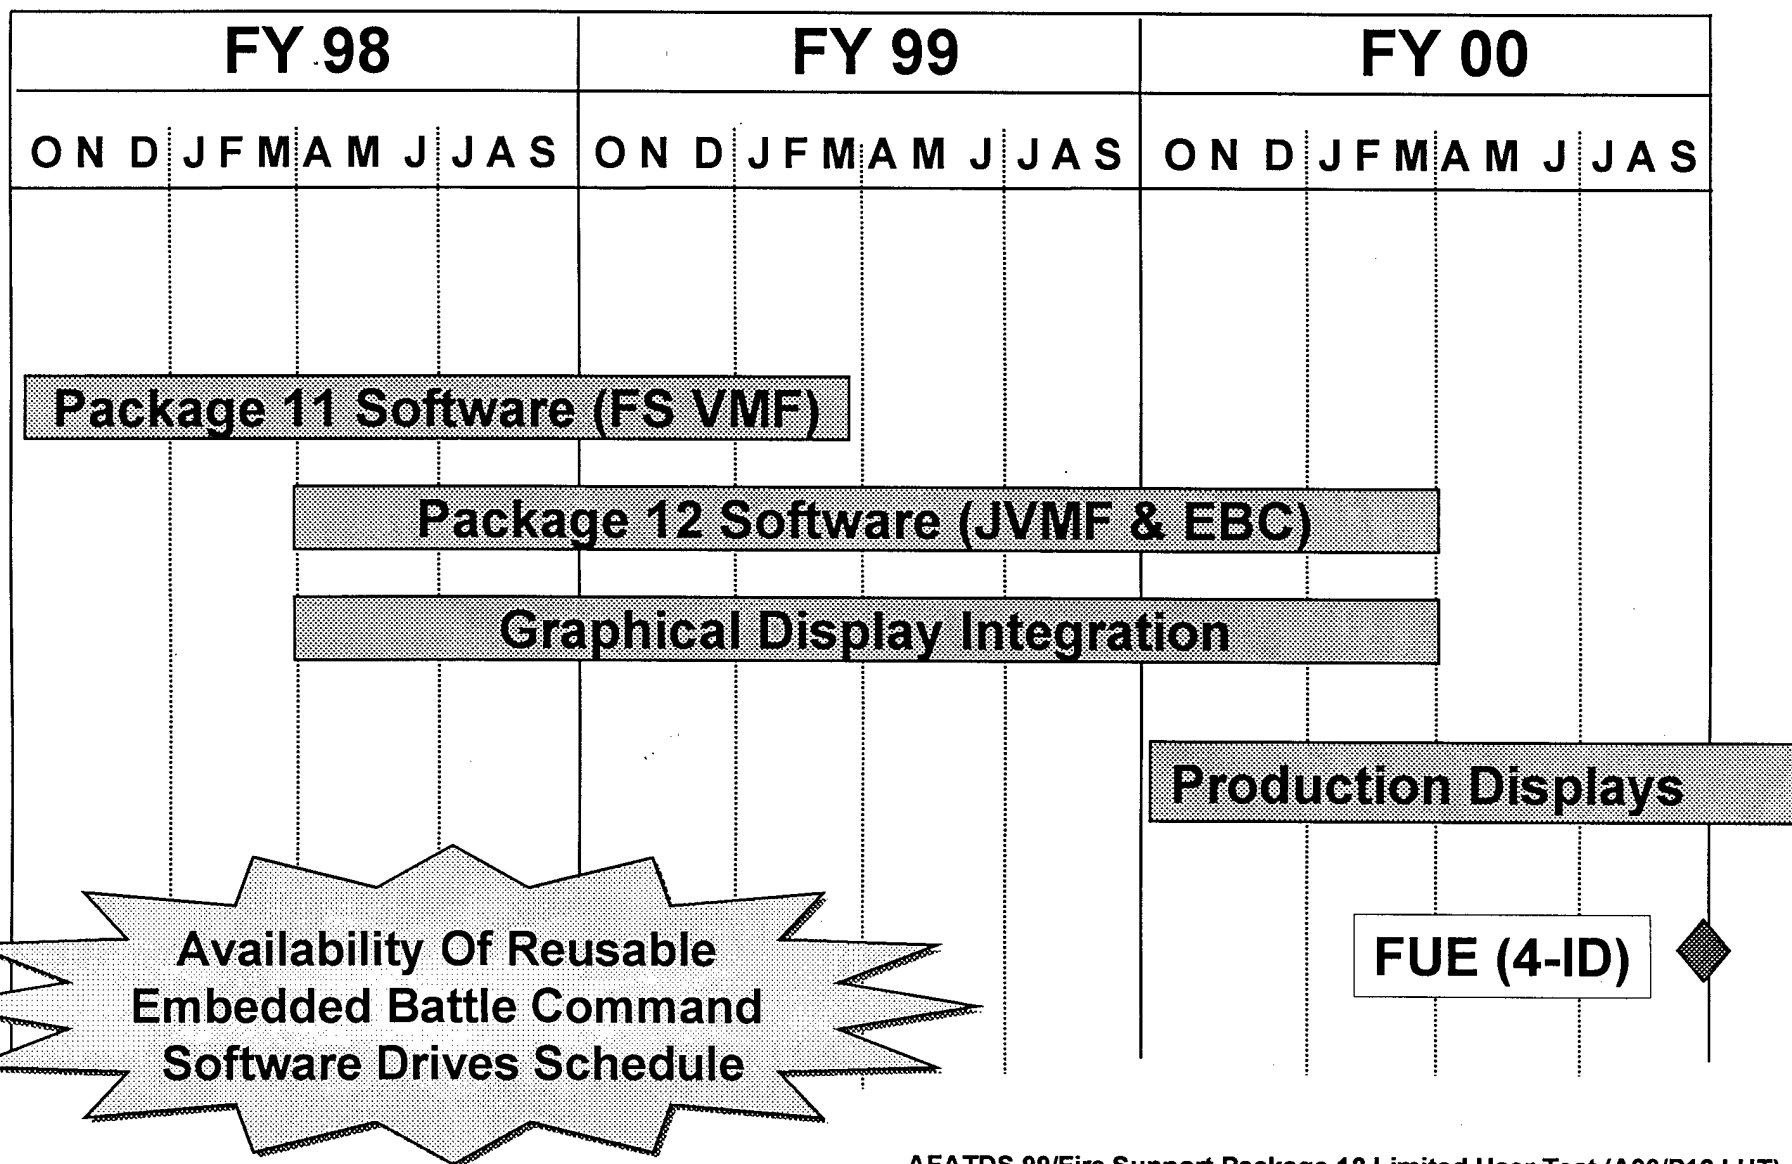

| <div> <div></div> Tactical Internet <div></div> Fire Support Connectivity </div> | | |
|--|---|----------------------------------|
| FTDS Package | Fire Support Connectivity (SINGARS/TCIM) | Tactical Internet (EPLRS/INC) |
| 10 | TACFIRE Protocol | |
| 11 | VMF | |
| 12 FDD | JVMF | JVMF |

EBC Provides Gateway To Tactical Internet

Committed to Excellence

Baseline Schedule - First Unit Equipped

AFATDS 99/Fire Support Package 12 Limited User Test (A99/P12 LUT)

Committed to Excellence

As of: 6/23/98

Summary

- **Keep The Soldier Machine Interface Simple**
 - > Minimize Training
 - > Maximize Fighting Effectiveness
- **Keep It Simple for Maintenance Personnel**
 - > Reduce The Number of 'Boxes'
 - > Improve Embedded Diagnostics
- **Manage Life Cycle Costs**
 - > Performance Specification
 - > COTS Components and Commercial Operating System
 - > Plan for Upgrades
 - > Migrate to Real Time Common Operating Environment (RTCOE)
- **Successful Weapons System Digitization Relies On A Customer-Oriented Approach To Reusable Embedded Battle Command Software**
 - > EBC Provider
 - > Platform PMs
